

Dear Ajit Pai and the rest of the FCC board, I support strong net neutrality backed by Title II oversight of ISPs. If you revoke Net Neutrality it will go to show how unpatriotic you are. We are the land of the free. Revoking Net Neutrality will make us the land of Comcast. I may not be able to have internet anymore if you revoke NN, and that would mean I would lose my job and have to drop out of school. Do you really want to destroy lives in order to please Comcast?
